---

<b>10+2</b> <i>Hetauda School Of Management</i>	Makawanpur,Nepal May, 2021 - May, 2023
<b>BSC.CSIT</b> <i>Hetauda City College</i>	Makawanpur,Nepal Nov, 2023 - Present

## PROJECTS

---

### Nepcart - An ecommerce Website

NepCart is an e-commerce platform built with Django, utilizing the MVC architecture. It features SQLite for database management, HTML and CSS for front-end design, SMTP for email notifications, and integrates payment gateways. The application is deployed on Heroku, ensuring scalability and easy maintenance.  
<https://nepcart-7b3c6fc86a48.herokuapp.com/>

### Simple Social media site

Developed backend code for a simple social media platform, allowing users to follow each other. Only posts from followed users are displayed in the feed. Users can like posts and explore profiles. Utilized SQLite, Python, Django, and deployed on Heroku. Repository hosted on GitHub  
<https://codenepal-b34f81214d64.herokuapp.com>

### Blog Site

Developed a Django-based blog website within a month, employing MVC architecture and integrating SQLite for database management. Utilized HTML, CSS, and Django templates for frontend design, while managing backend functionality with Python. Proficient in Git for version control. Repository hosted on GitHub
